### **DETAILED ACTION**

1. In response to the Office action dated June 1, 2005 the Amendment has been received on August 19, 2005.

Claims 1 and 13 have been amended.

Claims 1-25 are currently pending in this application.

### ***Allowable Subject Matter***

2. Claims 1- 52 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-12 are allowed because prior art fails to teach or make obvious a method for generating an x-ray exposure of an examination subject having a longitudinal extent in a longitudinal direction and exhibiting a curved geometry throughout the longitudinal extent, in a projection direction perpendicular to the longitudinal direction, comprising the steps of: moving an x-ray source and an x-ray detector in coordination with each other in the longitudinal direction along a curved path, substantially co-extensive with the longitudinal extent and substantially conforming to the curved geometry of the subject as claimed in combination with all elements of the claim 1. Claims 2-12 are allowed by virtue of their dependence.

Claims 13-25 are allowed because prior art fails to teach or make obvious an x-ray system for producing an x-ray exposure of an examination subject having a longitudinal extent in a longitudinal direction and exhibiting a curved geometry throughout the longitudinal extent, in a projection direction perpendicular to the longitudinal direction, comprising: a control device operating a mounting arrangement for moving an x-ray source and an x-ray detector in the longitudinal direction along a curved path substantially co-extensive with the longitudinal extent and substantially conforming to the curved geometry as claimed in combination with all elements of the claim 13. Claims 2-12 are allowed by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure Kresse (US Patent 4,894,855), Hegrelli (US Patent 6,200,024 B1) and Haendle (US Patent 4,807,273) teach robotic positioning system for use in x-ray imaging equipment.
